MEMBERSHIP TERMS & CONDITIONS

PTUK is a non-profit-making organisation for all professionals working therapeutically with children and young people & adults.

1 - PTUK's Role

PTUK exists to further the good practice of therapeutic work with children and young people / adults. We believe that the use of various forms of recognised therapies to help them fulfil their potential and overcome mental health needs has reached a critical stage in the UK.

Since therapeutic work with children and young people & adults draws its strength from a multi-disciplinary approach, it is vital to be completely open in considering and accepting many different approaches for working.

PTUK welcomes membership of anyone who has satisfactorily completed a recognised course for working therapeutically with children and young people & adults such as drama, art, music, movement therapy, as all these disciplines may be used on their own or as an integrative part of play therapy. They all have an equally valuable contribution to make.

PTUK is a forum for working together with respect for each other's role in the therapeutic work with children and young people & adults.

2 - PTUK's Mandate

- To act as a professional organisation for anyone working therapeutically with children and young people & adults in the UK.
- To promote the benefits of therapeutic work with children and young people and adults.
- To make training available in therapeutic work with children and young people and adults by working with training providers, disseminating information and accrediting appropriate courses in creative therapies. PTUK accredits several Universities and Colleges overseas and other specialised training institutions based in the UK, such as Academy of Play and Child Psychotherapy (APAC) that offer a variety of courses in play therapy. PTUK has the full support of, and liaises with, Play Therapy International (PTI), the foremost international association in its field outside the United States of America.
- To promote and advance discussion, education and research in play therapy, creative arts, and clinical psychology and psychotherapy.
- To liaise and work with other professional societies, associations and institutions whose members work with children and young people & adults.
